REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance:

The closest reference of record is WO 96/31501. The reference teaches carbonyl-piperaziny compounds, their process and use. See formula I, Page 1. The instantly claimed compounds differ from the reference compounds in the substituents on the piperazine ring. It is unsubstituted in the instant invention whereas it must be substituted with R2 or R3 which cannot both be hydrogen in the reference (see page 4). A substituted piperazine ring and an unsubstituted piperazine ring are not art recognized equivalents and therefore, one skilled in the art would not have been motivated to modify the teachings of the reference. Thus, the reference alone does not teach or fairly suggest the instantly claimed compounds and therefore, the instantly claimed compounds are deemed to be novel and patentably distinct.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
